

Annex 5 – Customer list of spare parts

The following is the list of spare parts provided by the Customer. The Contractor has the duty to regularly require via email to the Customer the materials (and the estimated quantity) it needs to carry out the service object of the contract.

Component	Compatibility
Axle Box TR 383	B46 UR/m, LSB46 and 38 UR/m
bearing type KINEX VKL 08-235 (PLC 410-33-2 / PLC 410-34-2)	004 and 306
Conic roller bearing	B46 UR/m, LSB46 and 38 UR/m
Tapered roller bearing	9064FS and 9073

The Contractor commits to give priority to the re-utilization of overhauled spare parts in general, particularly with reference to the spare parts provided by the Customer.

The Contractor is responsible for the supply of all the other spare parts.

The Customer accepts as grease for wheelsets type LSB46 and B46 UR/m the following types:

- Jota 3 FS (produced by Petronas);
- SGL ROLSFER ME (produced by Viscol).
